

**It's very  
Australian  
to give  
people  
a fair go.**

Australia has a proud migrant history and people from other cultures coming to live here has created a very rich and diverse population.

Shelter SA recognises and respects our Nation's First Peoples as the traditional custodians of the land but have you ever thought about where everyone else came from? We can all trace our origins to a country overseas. Our most recent arrivals need a safe place to call home, just like you and me, where they can nurture their children, make friends, go to school and get a job.

**Shelter SA works hard to make sure everyone who lives in Australia can find a safe, secure and affordable home.**
